IAIME

INTERNATIONAL ACADEMY
OF INDEPENDENT MEDICAL EVALUATORS

Promoting Excellence in MedicoLegal Evaluation since 1987

**AMA Guides 5th Edition Rating Certification
is Required in Many Jurisdictions
Fulfill Your Certification Needs
at the 36th Annual Scientific Meeting at the Paris Las Vegas Hotel
SUNDAY, JANUARY 29, 2023 | In-Person and Virtual**

During the **36th Annual Scientific Meeting** at the Paris Las Vegas Hotel, IAIME is offering the **AMA Guides 5th Edition Rating Certification** as a stand-alone course.

Who should take this course? Physicians, Chiropractors, and Psychologists whose states* require impairment ratings based on the AMA Guides, *5th Edition*, will find this course valuable.

Performing impairment is a skill which requires training and practice. You will receive in-depth review of the Principals of the Guides *5th edition* that form the foundation for accurate impairment ratings and practice using case scenarios in multiple area, pain, upper and lower extremity, spine, and medical conditions that are frequently encountered when performing medical evaluations.

The trained evaluator can provide an accurate impairment rating that benefits the injured worker and moves a case towards resolution.

*California, Nevada, Delaware, Georgia, Hawaii, Iowa, Kentucky, Massachusetts, New Hampshire, Ohio (8 hours every 5 years), Vermont, and Washington (except spine)
